Chinese Railway Timetable - July 2014 Edition
CONTENTS

SECTION/ TABLE	CONTENTS / LINES COVERED	VER-SION	FIRST PAGE	No. OF PAGES
Title	Title sheet	1	1	1
Index Map	Diagrammatic map of the Chinese Railways showing table numbers (North & South sheets)	1	2	2
Index Map (HS)	Diagrammatic map of the Chinese Railways showing table numbers (North & South sheets) - High Speed Lines	1	4	2
Contents	Contents (these pages)	1	6	4
Introduction	Introduction, Contact Details and Acknowledgments **Also COPYRIGHT NOTICE - Please Read This.**	1	10	2
Editorial	What's new in this edition?	1	12	1
User Guide	Explanation of how to use the timetable	1	13	1
Example	Example table and notes	1	14	1
Travel	Information about travelling on Chinese trains	1	15	1
Ticket	How to read and understand a Chinese railway ticket	1	16	1
Fares	A guide to Chinese train fares	1	17	1
Booking Forms	English / Chinese forms to assist in buying Chinese train tickets - for conventional and CRH trains	1	18	2
Useful Phrases	English / Chinese phrases to assist at stations and in trains	1	20	1
Station Index	Index showing table numbers for each station included in this timetable - Includes station names in Chinese characters	1	21	11
Overlapping Tables	Details of cases where more than one table covers one section of line	1	32	1
Train Numbering	Information about the Chinese train numbering system.	1	33	1
Non-Daily Trains	Details of trains which do not operate every day	1	34	2
Key	Table showing the relationship between tables of this timetable and pages of the CRPH timetable	1	36	8
1	Jing-Ha (1) and Shen-Shan (1) lines **[January 2013 Edition]** BEIJING - TANGSHAN BEI / TIANJIN - SHANHAIGUAN - JINZHOU - SHENYANG - CHANGCHUN - HAERBIN	1	44	8
H1	Jing-Ha (H1) and Ha-Da Gaotie (H1) lines **[January 2013 Edition]** BEIJING / TIANJIN - SHANHAIGUAN / DALIAN - SHENYANG - CHANGCHUN - (JILIN /) HAERBIN Includes conventional trains running on the high speed line Shanhaiguan - Shenyang	1	52	6
H1#	Jing-Hu Gaotie (48) [part] line and Jing-Ha (1) [part] lines **[January 2013 Edition]** BEIJING NAN - TIANJIN - TANGGU High Speed (CRH) Trains only For conventional trains see Table 1	1	58	1
4	Shen-Dan (4) and Liao-Xi (4A) lines and branches (4B/D/E) **[January 2013 Edition]** SHENYANG / LIAOYANG - BENXI - TIANSHIFU / FENGHUANGCHENG - DANDONG	1	59	1
5	Shen-Da (5), Gou-Hai (5A) and Yingkou (5B) lines **[January 2013 Edition]** DALIAN - WAFANGDIAN / (JINZHOU -) GOUBANGZI / YINGKOU - DASHIQIAO - ANSHAN - SHENYANG	1	60	2
6	Jing-Cheng (2), Jin-Cheng (6) and Da-Zheng (6G) [part] lines and branches (6A/E/F) **[January 2013 Edition]** BEIJING - CHENGDE / CHIFENG - YEBAISHOU - JINZHOU / FUXIN / DAHUSHAN - XINLITUN - SHENYANG / TONGLIAO	1	62	3
7	Ping-Qi (7), Da-Zheng (6G) [part], and Tong-Rang (8A) lines **[January 2013 Edition]** SIPING - TONGLIAO - TAIPINGCHUAN - DA'AN BEI - RANGHULU / BAICHENG - QIQIHAER	1	65	2
8	Jing-Tong (8) and Cheng-Long (2A) lines **[January 2013 Edition]** BEIJING / CHENGDE - LONGHUA - CHIFENG - TONGLIAO	1	67	1
9	Shen-Ji (9), Si-Mei (10) and Mei-Ji (10A) lines and branches (9A/B, 10B/C/D) **[January 2013 Edition]** SHENYANG - FUSHUN / SIPING - MEIHEKOU - JILIN / TONGHUA - JI'AN / BAIHE / LONGJING	1	68	2
11	Chang-Tu (11), Ji-Shu (11A) and La-Bin (11B) lines **[January 2013 Edition]** CHANGCHUN - JILIN / HAERBIN - SHULAN - DUNHUA - TUMEN	1	70	2
H11	Chang-Ji Chengji (H11) line CHANGCHUN - JILIN **[January 2013 Edition]** High speed (CRH) trains only - for other services see Table 11	1	72	1
12	Bin-Sui (12), Mu-Jia (12C), Lin-Dong (12D), Bo-Qi (12F) and Cheng-Ji (12G) lines **[January 2013 Edition]** HAERBIN - SUIFENHE / LINKOU - QITAIHE / JIAMUSI / JIXI - MISHAN - DONGFANGHONG	1	73	2

INTRODUCTION

Until December 2010 there were two main sources of information about train services in China - the 'Thomas Cook Overseas Timetable' and the timetable published by China Rail Publishing House (CRPH timetable). Regrettably the former has now ceased publication (although a brief summary of Chinese train times is now published in the March and September editions of the European Rail Timetable). The latter is very comprehensive, but is written entirely in Chinese and tends to deal with services in terms of trains rather than lines - making it difficult to establish the overall service available on a route.

This timetable is intended to make up for the lack of an official English language timetable - sufficiently comprehensive to suit travellers in China, particularly those with a railway interest, yet easy to read and understand. Every train shown in the CRPH timetable is included, plus some others where information is available, but not all stations are shown. For lovers of statistics the total number of trains shown is now over 4,900, the vast majority of which run daily. Over 2,600 of them are high speed trains which therefore now form over 50% of services. The number of stations included is now 1,097.

Compilation of this timetable has been much assisted by reference to the 'China Railway Atlas' Third Edition [ISBN: 1 898319 82 5] published by the Quail Map Company (the Quail Atlas). A deliberate decision has been made to follow the line numbering system used in the Quail Atlas, adapted as necessary, rather than developing another system. Permission to use the line numbering system, and to base the index map of this timetable on that in the Quail Atlas, is gratefully acknowledged.

I have copies of the Quail Atlas for sale, please contact me for further details, or see my website (details below). Alternatively you can contact the Quail Map Company, 2 Lincoln Road, Exeter, U.K., EX4 2DZ. Tel/fax: +44 (0)1392 430277.

The main source document for this timetable is the July 2014 edition of the CRPH timetable. Whilst the CRPH timetable is not without errors and inconsistencies, it is inevitable that in a work of this size and complexity errors will have occurred during the translation and compilation process. I apologise in advance for this and welcome advice of same, together with any information readers may have about changes to services.

The CRPH timetable was in the past published twice yearly, with changes generally taking place in April and October, but the current arrangements are less rigid, with no obvious pattern. Timetable changes are a hazard and must be borne in mind when planning travel. Sometimes the changes are minor (often a matter of a few minutes - a compiler's nightmare) and sometimes trains move to run at a completely different time of day. However the general trend is of acceleration of services and openings of new lines (a compiler's delight).

Timetable information for many local railways *(difang tielu)* is not shown in the CRPH timetable, and is difficult to obtain other than locally. Such information is included where known.

Comments are invited from readers with regard to the format, content and intent of the timetable. Any feedback received will be taken into account in the publication of future editions of the timetable. Please see also page 80.

Please let me know of any relevant timetable information you have or might come across. For example if you find that train times have changed from those in the timetable please let me know. I am particularly interested in information about services not currently included in my timetable. If you come across timetable information which varies from, or is additional to, the information in my timetable (such as a poster or wallboard at a station) and are not able to obtain a copy, please consider taking a photograph and emailing it to me - they generally come out well. Let me know where and when any such photographs were taken, and don't worry that the station names are only in Chinese - that's my problem!

For the latest available information please visit my website - see below.

CONTACT DETAILS

As I move around a lot the best way to contact me is by email at mail@chinatt.org. If you do not receive a timely response (normally within 48 hours), please contact dpeattie@hotmail.com. Please include 'CTT' in the subject line of all emails to avoid the increasing risk of deletion as junk email. Information about my email access, and about updates to services, can be found on my website http://www.chinatt.org/.

Or by post to: Duncan Peattie (CTT), c/o 29 Watford Field Road, Watford, United Kingdom, WD18 0BH

Postal enquiries may be subject to delay. Postal enquiries expecting a postal reply (other than orders) should be accompanied by a stamped, addressed envelope or International Reply Coupon(s) as appropriate.

IMPORTANT NOTICE

During the production of this edition it has become clear that further significant changes to services will be occurring in the near future. Rather than delay publication further this edition has been published in an incomplete state. Tables 1 to 14C and L1A to L14K (North East China) and Table 17A (Shanghai - Jinshanwei) are not updated from the previous (January 2013) edition, however all other tables are fully updated to July 2014. Registered purchasers wishing to clarify the latest available information are welcome to contact me. I am hoping to produce a new edition based on the January 2015 CRPH timetable (subject to confirmation of its publication).

Registered purchasers of this July 2014 edition will be invited to receive a copy of the next edition at no extra charge.

ACKNOWLEDGMENTS

Many people have assisted with the development of this timetable, some of whom choose to remain anonymous - particular thanks are due to:

Rickly Wong, who has provided much information and answered many questions where the complexity of the CRPH Timetable has defeated me. In addition Rick has helped with the provision of source information and has provided or checked the Chinese language content of the timetable.

John Yonge of the Quail Map Company, who has granted permission for the use of the line numbering system, and to base the Index Map on that in the Quail Atlas.

Terry and Madelyn McIntyre, who generously accommodated me in Hong Kong for the bulk of the production process.

And to my mother, Audrey Peattie, who holds the fort in Watford.

Duncan Peattie
Melbourne, Australia
3 December 2014

COPYRIGHT NOTICE

In my view there is not a commercial market for a detailed English language Chinese railway timetable. There is however significant demand for such information, hence this timetable.

As an experiment for the seventh (July 2011) edition I chose to make the timetable freely available under a Creative Commons Attribution-NonCommercial-NoDerivs 3.0 Unported Licence. In simple terms this means that the July 2011 timetable .pdf file could, and may still, be freely copied, distributed or transmitted, complete and unaltered, for non-commercial purposes. The intention of this was to enable the timetable to have a wider circulation, and this aim was certainly achieved. However my hope that a request for donations might produce a similar return to that of sales of previous editions was regrettably not achieved.

Accordingly subsequent editions have returned to the previous arrangements, and are conventionally copyrighted documents.

This timetable, whilst not published as a commercial venture, is the result of considerable time and effort and is registered to the purchaser. Please help to ensure the continued viability of this project by not making unauthorised copies. If you did not obtain this timetable directly from me or from Fahrplancenter, Switzerland (my sole authorised distributor) it may not be an authorised copy. If you are in any doubt as to the authenticity of this copy, or to obtain an authorised and registered copy at modest cost, please contact me (contact details on the previous page). This will also enable you to keep up to date with developments.

If you have obtained this timetable in the form of an authorised .pdf file you may print from it to produce and maintain a single printed copy of the timetable for your personal use.

Exceptionally registered purchasers may freely reproduce the Booking Forms on pages 18 & 19, complete and unaltered, for non-commercial purposes.

WHAT'S NEW?

The timetable has once again significantly increased in size since the last edition and now has 258 pages - partly to accommodate increased services on existing lines and partly to cover new lines now in service.

The opening of new lines continues apace, together with double tracking and electrification works. Some new lines are high speed lines paralleling existing lines; others are opening up new territory.

As is usual most trains have adjustments to times, generally of only a few minutes but in some cases by anything up to twelve hours.

The following tables are new to this edition:

Table H15L	Nanjing - Hangzhou high speed line
Table 19R	Nanchang - Fuzhou/Putian high speed line (including conventional trains)
Table 20P1	Wuhan - Huanggang Dong high speed line
Table 20P2	Wuhan - Huangshi Bei - Daye Bei high speed line
Table 20P3	Wuchang - Xianning Nan high speed line
Table H21	Hengyang - Guilin / Wuzhou Nan - Nanning - Beihai / Fanchenggang Bei high speed lines (including conventional trains Beihai - Fanchenggang Bei)
Table H26	Incorporates the existing Tables H26(W) and H26(E) and the new Luchuan - Chongqing high speed line (including conventional trains)
Table H34	Taiyuan - Xi'an and Xi'an - Baoji high speed lines
Table L30J	Anshun - Zhijin line
Table L59	Zhoukou - Fuyang line, also incorporates Luohe - Zhoukou trains from Table 20(N)

In addition the following existing tables have been reorganized to include services on new lines:

Table 15U	includes Hai'anxian - Rudong line
Table 20(S)	includes Shaoguan Dong - Ganzhou line
Table 27	includes Zhen'an - Shiyan line
Table 27E	includes branches to Pengzhou and Lidui Gongyuan
Table 43(S)	includes Ji'an - Jinggangshan - Hengyang line
Table 86	includes Xiamen - Shenzhen high speed line (completing the coastal route from Hangzhou to Shenzhen)
L31C	includes Yuxi - Mengzi Bei line (in due course to extend to Vietnam as a replacement for the erstwhile metre gauge route)
Table 45 (renumbered from L45)	includes Yining - Huoerguosi line

The following sections of existing line have changed table:

Hangzhou - Ningbo (conventional trains) from Table 86 to Table 15L
Nanning - Qinzhou - Beihai / Fanchenggang from Table L21E to the new Table H21
Jiyuan - Jiafeng from Table 35 to the new Table L34J

The following tables have been renumbered but have no change in coverage:

Table L15N is now Table 15N
Table L37# is now Table 37#

On a more negative note the following sections of line no longer have any services shown:

Nanchang - Jiangbiancun (Table L18D)
Yibin - Xunchang (Table L28C)
Qujing - Xiquele (Table L30C)
Panzhihua - Geliping (Table L31A)
Guoerbenaobao - Chagannuoer (Table L38A)
Baotou circular railway (Table L39B)
Wuhai Xi - Jilantai (Table L39C)

It is unclear as to whether these services have actually been discontinued or have simply been removed from the timetable. Visitors who are able to establish the operation of services 'on the ground' are invited to pass on any relevant information.

I think there is a lot of interest in the new edition – I hope that you will too!

Chinese Railway Timetable - July 2014 Edition
USER GUIDE

Whilst at first glance this timetable may appear somewhat daunting, this is inevitable bearing in mind the sheer size of the Chinese railway network and the complexity of services provided. Please do not be put off.

By studying this page and the Example page following, those not familiar with the use of railway timetables should be able to gain an appreciation of the services available, and to plan itineraries (real or 'armchair') for rail travel within China. Bear in mind that alterations may be made to train services, sometimes at short notice. Itineraries should be confirmed locally whenever possible.

This timetable follows a format which will be familiar to users of British or European railway timetables, but with significant adaptation. Even those who consider themselves experienced in the use of railway timetables are strongly recommended to study these pages to ensure that they are not misled. Each table covers a line, or group of geographically connected lines, and in most cases shows all trains operating within the area covered. In a few cases, where two or more tables overlap, it may be necessary to consult both/all tables to establish the complete service - a list of such cases is provided.

To simplify the presentation of the tables, a number of notes are used. Standard notes are explained on the Example sheet, but not in the tables themselves. Non-standard notes are explained adjacent to where they are used. Notes are important - always ensure that you understand the meaning of every note applying to a train in which you are interested.

Many Chinese trains run over relatively long distances, giving a wide range of direct journey opportunities. Where trains operate over the lines of more than one table a system of cross-referencing is used. Where the origin of a train is not within a table, the origin is shown at the top of the train column together with the number of the immediately preceding table. Similarly where the destination of a train is not within a table, the destination is shown at the bottom of the train column together with the number of the immediately following table. In this way trains can be followed from table to table.

There are several methods of finding the train service between two stations. The Index Map can be consulted – this shows the table numbers applicable to each section of line. If the stations you are looking for do not share the same table number, following the route will show the tables which need to be consulted. Another method is to use the Station Index - this shows the tables serving each of the stations shown in the timetable.

Whilst most Chinese trains run daily, care should be taken with regard to those that do not. Where trains run on particular days of the week this information is provided in the timetable. A few trains, however (and the number of them is diminishing) run only on alternate days (not determined by the day of the week). This fact is noted in the tables, and information as to which service operates on which day is provided. In many cases it is possible to make the journey on the 'other' day by changing trains. Details of all trains not running daily are provided. Unusually the service in Table 17A (Shanghai Nan - Jinshanwei) is different on Saturdays & Sundays from that on Mondays to Fridays; full details are provided in the table.

As a general rule, trains are shown in chronological order, although where fast trains overtake slow trains on the same line trains can get ‘out of step’. Users are advised to bear this in mind, particularly when considering connecting services - more possibilities may exist than are immediately apparent. As a matter of interest the CRPH timetable generally shows trains in order of train number, irrespective of time.

The kilometric distances, shown at the beginning of each table, can be used to cross-reference this timetable with the Quail atlas. Where the distances are shown in normal type, they are the 'official' distances for the line in question and should correspond (although not always exactly) with the kilometre posts 'on the ground'. Where the distances are shown in *italics* they are valid only for determining relative distances.

For those with access to the CRPH timetable, the Key can be used to translate the pages thereof into the tables of this timetable, and vice versa. The train columns in this timetable include the relevant page number(s) of the CRPH timetable for each train. For those interested the Key gives a good overview of the complexity involved in the compilation of this timetable!

This timetable does not attempt to act as a comprehensive guide to travelling on the Chinese railway system – a fascinating subject in itself. Some information is provided in the Travel section. Further useful information can be found in the many guidebooks covering China, and on the internet.

Booking Forms have been provided; one (page 18) for conventional trains, and another (page 19) for high speed trains. Users of the timetable may find these forms helpful when purchasing train tickets. Printed in English and Chinese, they are designed to assist in obtaining the desired tickets and to avoid misunderstandings which may otherwise occur. Chinese railway ticket offices tend to be busy places - by preparing a copy of the appropriate form in advance and by using the Chinese names in the Station Index, users may help both themselves and the booking clerk.

NEXT TABLE >									

General direction (not always geographically accurate)

Train numbers are odd in this table except as shown

See below for train types

Starting point of train, if not in this table

Table showing previous stage of train's journey including direction

Train numbers are opposite (in this case even) over this section

Spaces indicate branches

Horizontal lines separate places not directly connected

Station column

arrival time

departure time

Other tables served by trains from this station or (from a different station in the same city)

Finishing point of train, if not in this table

Table showing next stage of train's journey including direction

Starting point of train

Previous stage of train's journey is in opposite direction of same table

Portion detached from train in earlier column

Train continued from earlier column

Commencement date not known

Train continued in later column

Train does not stop at this station

Only one time shown for this station

Train does not pass this station

Finishing point of train

See notes in column (may be above or below)

Exact time uncertain

Shading - train does not run every day and/or is not shown in a current timetable. Check notes for details of days or period of operation.

(In italics) Time at station in this table where train runs via another table

Portion detached for train in later column

Table numbers in **bold** indicate complete service between these points will be found in that table
See also Overlapping Tables on page 32

+ - Due to the large number of tables involved, table numbers are not shown in station columns for Beijing, Shanghai, Guangzhou, Hankou, Wuchang and Wuhan stations. All tables are shown in the Station Index.

Other general notes (used in train columns):

@ - Train not shown in a current timetable - **operation subject to confirmation**

@ - Train not shown in CRPH timetable but established as operating by other means

b - bei (north)
d - dong (east) ~
n - nan (south)
x - xi (west)
Used when train serves a station different from that shown in station column

a - arrival time
d - departure time ~
Used when time is not as shown in station column

~ - Note the distinction between **d** (dong station) and d (departure time)

u - train calls to pick up only
s - train calls to set down only

Train types (see also Train Numbering on page 33):

CRH - High-speed multiple-unit express train (a/c)
EMUS - High-speed multiple-unit overnight express train (a/c)
a/c - Air conditioned express, fast or ordinary train
ord - Non air conditioned express, fast or ordinary train
KTT - Double deck MTR push-pull express train on Guang-Shen line (a/c)
slow - Local train - generally calling at all stations (not a/c)
In tables prefixed H, when no train type is shown, train is CRH
In tables prefixed L, when no train type is shown, train is slow

Days of operation (see also Non-Daily Trains on pages 34 & 35):

Chinese trains generally operate daily - variations are shown as follows:

M - Monday }
T - Tuesday }
W - Wednesday }
Th - Thursday } followed by O (Only) or X (eXcepted) as appropriate
F - Friday }
S - Saturday }
Su - Sunday }

\# - With train type - operates on alternate days only
\# - With origin/destination - origin/destination differs on alternate days
See page 35 for further information about alternate day trains

Entries shown in **bold** apply to the entire train, otherwise only to the portion shown

Any notes not explained on this page are explained near where used

TRAVELLING ON CHINESE TRAINS

There are four classes of accommodation on conventional Chinese trains: Yingzuo (YZ) - hard seat, Ruanzuo (RZ) - soft seat, Yingwo (YW) - hard sleeper and Ruanwo (RW) - soft sleeper. The initials are generally understood by staff (English speaking or not) and are shown adjacent to carriage doors. High speed trains have first and second class seats; some trains also convey 'Premium Class' and/or 'Business Class' seats.

Generally hard seats are arranged 2+3 in bays each side of a central corridor, and do not recline. They are comfortable enough but I do not recommend them for long distance travel simply because they tend to be very crowded. Soft seats are 2+2, again with central corridor, and can be either non-reclining in bays or reclining airline style (often reversible). Second class seats on high speed trains are arranged 2+3 and first class 2+2, in both cases airline style (often reversible). 'Premium Class' and 'Business Class' seats are arranged 1+2. Where soft seat accommodation is not available consider travelling in hard sleeper accommodation for long daytime journeys. To upgrade accommodation on conventional trains go to the hard seat carriage next to the dining car (normally towards the centre of the train), which has a small office at one end. For high speed trains ask staff.

Hard sleepers are generally 6 berths per 'compartment' (no doors). Soft sleepers are generally 4 berths in true compartments (lockable from inside). 2 berth 'special' soft sleepers are available on a few trains between Beijing, Shanghai and Hong Kong. They are well appointed soft sleepers with no upper berths, and with a shower compartment at one end of the carriage (unfortunately not a normal Chinese provision). A very few trains also offer single berth accommodation.

The only sleepers with washing facilities in compartments are the single berths mentioned above - all carriages (seat and sleeper) have toilets and washrooms at carriage ends (soft sleeper washrooms can be locked from inside). Chinese train toilets are generally of Asian style but one toilet in soft sleepers is generally of western style (but not necessarily any more salubrious!). Provision of toilet paper should not be relied on (although its presence is nowadays much less of a surprise) but is among the many items sold from on-train trolleys. Bedding (quilt or sheet/blanket, plus pillow) is provided with all sleeping berths. Although hard sleepers offer less privacy I find them quite acceptable for long distance travel. There is no differentiation by sex in sleeper allocation. Hot water is provided free of charge from a boiler at the end of each carriage (seat and sleeper) – bring (or buy) your own mug and tea, coffee, soup etc.!

'Ownership' of sleeping berths is for the entire journey - there is no presumption that lower berths are available for use as seats by upper berth passengers during the day (although they can of course be used with the permission of lower berth passengers). Additional 'tip-up' seats are provided in the (relatively wide) sleeper side corridors.

Most trains (other than slow) are air-conditioned – these are shown in the timetable. Some soft sleeper carriages of non a/c trains are in fact air-conditioned. Almost all trains have a trolley catering service; most convey dining cars. Trolley catering service is often available on station platforms during stops.

Chinese train tickets are issued for single journeys, and generally for a particular train. Return tickets and rail passes are not available. It is now often possible to buy tickets at stations other than the departure station, or at in-town official ticket agencies - a RMB5 per ticket supplement applies in these cases. The rules relating to refunds and exchanges are complex, and tickets cannot be bought far in advance. Passport numbers (or ID numbers for Chinese citizens) are generally printed on tickets, therefore you should have this information for all passengers (copies acceptable) when booking tickets. The only acceptable form of payment for tickets is RMB (Chinese Yuan) cash. An example of a ticket, and how to read it, is shown on the next page.

The definition of children for ticketing purposes is done not by age but by height. Children under 1.2 metres tall travel free (but are not entitled to a seat to the exclusion of other passengers) whilst children between 1.2 and 1.5 metres tall travel at half fare. Carriages have height markers at one end for the settlement of any disputes!

Seat tickets for all but slow trains generally include a seat reservation at no extra charge, but 'standing only' hard seat tickets may be sold beyond the allocation of seats. If your seat is occupied show your ticket to the occupant who will generally vacate the seat without fuss. In case of difficulty seek the assistance of train staff (there is generally an attendant in each carriage). If you do not have a reservation you may occupy any vacant seat of the appropriate class, but must be prepared to give it up for a passenger with a reservation for that seat.

Boarding of trains in China is a fairly regimented procedure. Allow plenty of time, and note the train number and departure time shown on the ticket. This information will be shown in the station - follow the signs to the correct boarding point. If in doubt show your ticket to any railway staff - they will point you in the right direction.

Chinese trains are particularly busy at holiday times. Travel during the following periods should be avoided if possible (check exact dates for each year): Chinese New Year (January - February), Labour Day (early May) and National Day (early October).

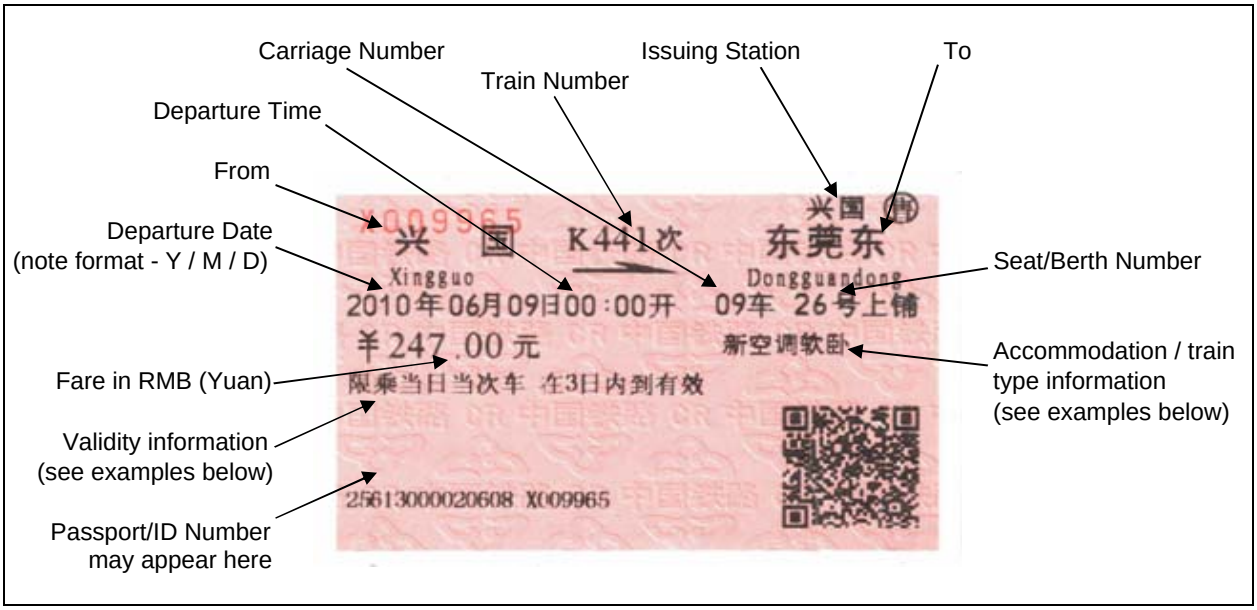
Enjoy your travels!

HOW TO READ AND UNDERSTAND A CHINESE RAILWAY TICKET

This is an example of a common form of Chinese railway ticket, shown slightly smaller than actual size (based on A4 page size).

The background is pink with a white border, although the shade may vary. Station names are now generally shown in Pinyin underneath the characters, but if your ticket has Chinese characters only, the station names can be translated using the Station Index. This ticket is for a soft sleeper berth from Xingguo to Dongguan Dong (Table 43(S)).

Other types of ticket exist, for example many CRH train tickets have a blue/green background, but generally follow a similar layout. Some tickets incorporate magnetic stripes or even RFID chips.



The characters for Upper (上), Middle (中) or Lower (下) may appear after the seat/berth number.

In the case of seat numbers 上 or 下 refers to the upper or lower deck of a double deck carriage.

If the characters 无座 are shown instead of a carriage/seat number this indicates 'no reserved seat'.

Examples of accommodation / train type information:

硬座	Hard class [seat]	新	New (higher standard accommodation)
软座	Soft class [seat]	特快	Express train
硬座..卧	Hard class sleeping berth	快速	Fast train
软座..卧	Soft class sleeping berth	普快	Ordinary train
空调	Air-conditioned		

Characters are combined as appropriate, for example:

硬座普快	Hard class [seat], ordinary train.
新空调硬座特快	New air-conditioned hard class [seat], express train.
新空调软座特快卧	New air-conditioned soft class, express train, sleeping berth.

Examples of validity information:

当日使用一次有效 Valid on the specified date on any train - one use only (Break of journey not permitted).

限乘当日当次车 Valid only on the specified date and specified train.

在3日内到有效 Break of journey permitted - the journey must be completed by the end of day 3 (day of departure is day 1). The break of journey procedure is not straightforward and is not recommended for the inexperienced.

Chinese Railway Timetable - July 2014 Edition
FARE INFORMATION

Indicative fares for travel on selected routes are listed below. Fares vary between services but the information shown should act as a useful guide. All fares are in RMB (Chinese Yuan - CNY) except where shown and are for adult one way journeys - return fares are double.
Fares are applicable in either direction, except that fares TO Hong Kong are charged in RMB and may differ from fares FROM Hong Kong.
Fares shown for sleeping accommodation are for lower berths - middle (YW only) and upper berths are slightly cheaper.
Note that not all trains convey all classes of accommodation. Distances shown are for conventional lines - high speed line distances may vary.

As Chinese rail fares are distance based the fares and distances on this page can be used to estimate fares for other journeys. There are variations according to train type, with fares for non air-conditioned trains being considerably cheaper than for air-conditioned conventional trains, which are themselves considerably cheaper than high speed trains. Fares for G and some C trains are higher than for D trains, reflecting their higher maximum speed.

Chinese Railway Timetable - July 2014 Edition
BOOKING FORM - CONVENTIONAL TRAINS
Tick or complete boxes in top half of form as appropriate

购买车票表格 (供不懂汉语人士使用)

售票员您好，我想买火车票，但却不懂汉语，希望您能给予协助：

我要买车票：
I would like tickets for:

☐ 成人(张) Adults, and:

☐ 孩童(张) Children

我想从：
I want to travel **from:**

☐ 本站 This station

☐ 从这车站： The station written here:

☐ 我所指的这个车站 The station I am pointing to

到：
to:

☐ 本站 (返程票) This station (Return journey)

☐ 从这车站： The station written here:

☐ 我所指的这个车站 The station I am pointing to

出发日期：
Leaving on (Y / M / D): 201 / /

时间：
at (time): :

车次：
by train no:

☐ 今天出发，最快开出的列车
Leaving today by the next available train

所需车票类别：
I would like to travel in:

☐ 硬座 [YZ] Hard seat (Yingzuo)

☐ 硬卧 [YW] Hard sleeper (Yingwo)

☐ 软座 [RZ] Soft seat (Ruanzuo)

☐ 软卧 [RW] Soft sleeper (Ruanwo)

所希望的卧铺位置(最好能安排一起)用勾代表：
Sleeping berths should, if possible, be together and in the positions as ticked:

上铺 Upper (Shang) berth [YW/RW]
中铺 Middle (Zhong) berth [YW]
下铺 Lower (Xia) berth [YW/RW]

请问是否有我所需的车票?
Can you sell me these tickets?

售票员可在此回复购票者查询(请在格内打勾)： **BOOKING CLERK'S REPLY:**

☐ 有票，并请付人民币..... 元 (请在右边空格填上金额)：
Yes, I can sell you the tickets you have asked for - please pay me RMB: 元

对不起，没有你所需的车票，原因是：
No, I cannot sell you the tickets you have asked for. The reason is:

☐ 这日期没有你所需的车次，请选别的车次或日期
There is no such train on that date. Please choose another train or date.

☐ 票已售完，请重新选择别的车次或日期
The train is completely full. Please choose another train or date.

☐ 所需的车票类别已售完，不过：
The class you want is not available, but:

☐ 硬卧仍有票
Hard sleepers are available

☐ 硬座仍有票
Hard seats are available (with seat reservation)

☐ 只有无座票
Only hard seat tickets with no seat reservation

☐ 此日期仍未开售，请在...(右边写上日期)再来购票：
You cannot buy tickets for this train until (Y / M / D): 201 / /

☐ 请到....(右边写上)号售票窗购票：
You must go to ticket window number:

USEFUL PHRASES

At the Station:

这儿有没有最新的 「全国铁路旅客列车时刻表」?
I would like to buy a copy of the CRPH Timetable.

售票处在哪儿?
Where is the ticket office?

哪个售票窗口有预售票发售?
Which window is for advance bookings?

哪个售票窗口有异地始发列车车票发售?
Which window is for buying tickets for a train starting from another station?

有没有外国人购票专窗?
Is there a special ticket office for foreign travellers?

我未能及时买票，我会在上车时补票
I was not able to buy a ticket and would like to buy one at the train.

车站内有没有寄存行李的服务?
Is there a left luggage office in the station?

On the Train:

如车票上所示，这是我的位置，我能否在这儿坐吗?
This is my seat, as shown on my ticket - please may I sit here?

请问这趟车有没有餐车?
Is a restaurant car available on this train?

餐车在哪个方向?
Which direction is the restaurant car?

这趟是非吸烟列车，请不要在车上吸烟。
This is a non-smoking compartment - please do not smoke here.

哪里有热开水供应?
Where can I get hot water?

请问哪儿可以办理补票、变席手续?
Where can I buy/upgrade my ticket?

请问列车什么时间抵达 _____ 站?
When will the train arrive at _____ Station?

列车会否晚点到达?
Will the train be arriving late?

能否在列车到达____站之前通知我一声?
Please will you let me know when the train is about to arrive at _____ station?

非常感谢您的帮忙。
Thank you very much for your help.

Note: The numbers shown for each station are the table numbers in this timetable. Table numbers in *Italics* denote stations referred to only in table notes. Where this applies to all tables for a station, the station name is also shown in *Italics.* Table numbers in [brackets] denote either lines passing through a station where calling times are not shown in this timetable, or other railway administrations at borders.

OVERLAPPING TABLES

The service on the following sections of line is shown in more than one table. Generally the complete service will be found in on the tables but there are some cases (marked %) where reference to each table is necessary. Services between stations within the sa city are not included in this list (for this purpose Wuhan/Wuchang/Hankou are considered as one city) - such services are not genera available for local passengers

Between - and (Stations)	Covered by Tables	Complete Service in Table	Remarks
Angangxi - Qiqihaer	14, L14#	14	
Anshun - Guiyang	22, L30J	22	
Benhong - Jining Nan	37, 44	44	
Changchun - Dehui	1, L1G	1

Jingmen - Yichang Dong	25, 26	%	
Jiyuan - Luoyang	35, L34J	35	
Lingyuan - Yebaishou	6, L6C	6	
Nanchang - Xiangtang	18, 43(S)	%	
Shizuishan - Yinchuan	37, L39E	37	
Taiyuan - Yuci	34, 35	34	
Tulufan - Wulumuqi Nan	40, L40C	40	
Xi'an - Xianyang	24, L24C	24	

The following sections of line have separate tables for high speed and conventional trains. In most cases high speed trains run a high speed line paralleling the conventional line, but exceptions are noted. Trains on each line may use different stations - refe the tables for details. Also included here are lines where no conventional trains opera

Between - and (Cities)	Conventional Trains in Table	High Speed Trains in Table	Remarks
Baoji - Xi'an	24	H34	
Beijing - Haerbin	1	H1 ~	~ - Includes conventional trains running on high speed line between Shanhaiguan and Shenyang

Tanggu - Tianjin	1	H1#	
Wuhan - Yichang	26	H26 ^	^ - Includes conventional trains running on high speed line
Xi'an - Zhengzhou	24	H20(N)	

THE CHINESE TRAIN NUMBERING SYSTEM

Each Chinese train has a unique train number, which is used for timetabling and ticketing as well as for operational purposes. For each line trains in one direction carry odd numbers, whilst trains in the opposite direction carry even numbers. Wherever during its journey a train changes from an odd to an even numbered direction (or vice versa) it changes its number accordingly. This is why many trains have two (or occasionally more) numbers. At stations and on tickets only the train number applicable to the departure from the station in question is shown. **A full understanding of the numbering system is not necessary - just take note of all applicable numbers and be prepare for any to be used.** The tables show all numbers applicable to each train. As far as possible the number shown in the top row a train column is the number applicable to the column; numbers in the second row applying to other parts of the train's journey. The tables also show **odd**' or '**even**' for each line - exceptions within a table are identified by a black bar next to the station column. See page 14 an example.

In addition to the direction of the train the train number gives information about the category of train. In descending order of importance, comfort and speed the following categories apply:

'CRH' air conditioned electric multiple unit trains

G1-G2998	-	maximum speed 300km/h - inter-bureau
G6001-G8998	-	maximum speed 300km/h - intra-bureau
C2001-C2998	-	maximum speed 300km/h - Beijing-Tianjin-Tanggu
C3001-C3998	-	maximum speed 300km/h - Shanghai-Jinshanwei
C5001-5998	-	maximum speed 300km/h - Wuhan Intercity lines
D1-D4998*	-	maximum speed 250km/h - inter-bureau
D5001-D8998	-	maximum speed 250km/h - intra-bureau
* except D301-D314 and D321/D322	-	maximum speed 250km/h, with sleeping accommodation [shown as 'EMUS']

Conventional locomotive hauled trains

Z1-Z998	-	Non/limited-stop express trains - maximum speed 160km/h - air-conditioned
T1-T798	-	Express trains - maximum speed 160km/h - air-conditioned - inter-bureau
T801-898		Express trains - maximum speed 160km/h - air-conditioned - international trains between Guangdong and Hong Kong
T5001-9998		Express trains - maximum speed 160km/h - air-conditioned - intra-bureau
K1-K2998	-	Express trains - maximum speed 120km/h - mostly air-conditioned - inter-bureau
K7001-9998	-	Express trains - maximum speed 120km/h - mostly air-conditioned - intra-bureau
1001-2998	-	Ordinary trains - maximum speed 120km/h - mostly air-conditioned - inter-bureau
4001-5998	-	Ordinary trains - maximum speed 120km/h - some air-conditioned - intra-bureau
6001-7998	-	Slow trains - not air-conditioned

In the tables the train type is shown as 'CRH', 'EMUS' or 'slow' if appropriate. All other trains are shown as 'a/c' if air-conditioned, 'ord' if not. Exceptionally, a different category applies to some trains on the Guang-Shen line (Table 20T) - see page 14.

Other categories exist, e.g. 'S' & 'Y' Tourist trains and 'L' Temporary trains. Some local trains may also be numbered in a non-standard manner.

The bureaux referred to above are the administrative regions of the Chinese Railways - there are currently 18 of them.

HELP ME TO HELP YOU!

Please take a moment to let me know your views about the timetable.

Rather than using a structured form please tell me in your own words (you can quote item numbers below). Here are some suggestions for information that would be useful to me, but please feel free to add anything else.

1. Which format of the timetable (.pdf, A5 printed or A4 printed) do you have?

   If you have the .pdf edition, how do you use it? For example do you:

   a. carry the timetable on a portable computer/device?
   b. carry the timetable on a memory stick and use computers as available?
   c. print the complete timetable?
   d. print the pages needed for a particular purpose?

   Have you used the .pdf bookmarks? If so do you find them useful?

   If you have the A5 printed edition do you have any difficulty reading the size of print?

2. What is your level of understanding of transport timetables? How much do you use them generally? Do you have trouble with them generally?

3. Do you find the timetable easy to use? Do you have trouble following trains between tables? Which parts of the timetable do you find most/least useful?

4. Bearing in mind that the timetable has to include a large quantity of data, do you think the way the data is presented can be improved? Please offer your suggestions.

5. Have you travelled by train in China before you obtained the timetable?

   If you have not, are you apprehensive about doing so? Does the timetable help you with any of your concerns?

   If you have, how did you get timetable information previously?

6. Do you consider the timetable to be good value for money?

7. Would you recommend the timetable to a prospective user? Why/why not?

All comments and suggestions gratefully received - criticisms are allowed too, but please be gentle!

I put comments on my website <http://www.chinatt.org/po.htm> to help prospective users decide if the timetable is suitable for them. If you are willing for your comments to be used for this purpose please say so - letting me know if/how you would like to be identified (e.g. name/city/country). By default any comments received are considered to be not for publication.

Please also let me know of any relevant timetable information you have or might come across. For example if you find that train times have changed from those in the timetable let me know. In particular please let me know about services not included in my timetable. If you see timetable information for such lines (such as a poster at a station) and are not able to obtain a copy, please consider taking a photograph and emailing it to me - they generally come out well. Let me know where and when any such photographs were taken, but don't worry that the station names are in Chinese - that's my problem!

Thank you in advance for any assistance you can provide - my contact details are on page 10.

Duncan Peattie

HOW IS THE TIMETABLE PRODUCED?

Here is a step by step guide to the production process - of necessity not fully comprehensive:

1. Obtain current CRPH timetable.

2. Scan entire CRPH timetable (except last section which is not required) and print so that each page is A4 size.

3. Go through first section of CRPH timetable (train list) and list air-conditioned trains.

4. Go through body of CRPH timetable and endorse each page with relevant table numbers.

5. Copy base files of previous edition of CTT (Excel, Word and Maps) to form working documents for the new edition.

6. Create the key from the endorsed CRPH pages using the previous key as a template.

7. For each table (in any order) do the following:

a) Open the table in the Excel file and separate each direction into a different worksheet.

b) Using the key visit the first CRPH page referred to and deal with each train - amend if existing; insert if new. Check a/c status against list as necessary. Highlight each train number in the table and tick each train in CRPH when done. Tick through table number endorsement and highlight key entry when all trains in table dealt with for that page. If no more tables outstanding on page tick through page number and highlight page number in key. Add/remove stations as appropriate ensuring that each direction is in step. Ensure that all stations which are referred to in the table but which is not in the station list are added to a special temporary list together with the respective table number in the third column - ensuring that all these entries are in italics.

c) Repeat for each page until all pages for the table are finished - check each key entry for the table is now highlighted.

d) For each train not highlighted consider whether it no longer operates or has been missed (refer to first section of CRPH to see if it is in train list). Delete trains confirmed as no longer operating.

e) Confirm that all trains are now highlighted and then remove highlighting.

f) Consider each train column in the table chronological order and move columns as necessary until all trains are in the best order possible. This may take several iterations and may involve compromise. Ensure that end of table is consistent with beginning as most tables go 'round the clock'.

g) When satisfied with each direction, put directions back together and adjust table formatting to ensure best fit. Add/delete empty columns as necessary. If there are a significant number of empty columns consider replacing them with space for other purposes - and then think what those purposes might be!

h) Carry out a final check that the table is complete and then highlight the table number in the key and in the table column of the contents page.

i) Repeat for the next table, creating new tables as required - keeping the contents pages in step.

8. When all tables are complete carry out a final check that nothing has been missed (something will have been!). In CRPH ensure that each page has been ticked for each train for each table and that all page numbers are ticked. In the key ensure that every entry, table and page number has been highlighted - then remove all highlighting.

9. Now it is time to prepare the station index:

a) For each table copy the top direction station list and add it to the stations already in the temporary list referred to in 7b) above. Add the respective table number in the third column.

b) When every table has been dealt with highlight the entire list of stations (first column only) and then add the first and second columns of the entire existing station index to the temporary list (do NOT highlight). Now the reason why the table numbers are in the third column is clear - the Chinese names are in the second.

c) Remove all borders and carry out a data sort on the entire list - first by column 1, then by column 3. This will bring the stations into alphabetical order.

d) Rationalise the entries for each station by manually building up the list of table numbers in the row containing the Chinese name. Ensure italicisation is correct.

e) Once this exercise is complete remove all highlighted entries where the corresponding non-highlighted entry is complete and correct. Identify any entries requiring further attention (there will be some). Any other highlighted entries in the first column will represent new stations. Chinese names will be required for these - add them or highlight the second column accordingly for further attention. Once all entries highlighted in the first column have been accounted for or identified for further attention the first column highlighting can be removed.

f) Any unhighlighted entry with an empty third column represents a station no longer represented in the timetable. For each check that this is in fact correct and then delete as necessary.

g) Once this list is in good order add borders so that it can be used to repopulate the station index. Leave some rows at the bottom of each page for the inevitable adjustments. Correct the column headings.

10. Establish how many pages will be used for the various non-table items so that the first page number for the first table can be established. If in doubt err on the liberal side. Non-critical items like the comments page or this one can be adjusted to suit the final situation.

11. Now it is time to revisit each table to correct page numbers/margins/headers/footers etc. as appropriate and to adjust the table numbers in the station columns to match the station index. Any changes to headers and page numbers need to be kept in step with the contents pages. The distance entries should also be checked/adjusted as necessary.

12. At this point the tables will be complete (other than the inevitable fine tuning) so attention can be given to the non-table items. At the moment the only non-table items completed are the key and the station index, although the contents pages will be well advanced. All the other non-table items will require consideration and updating/rewriting as necessary. Non-daily trains are always tricky.

13. Once this is done the contents pages can be finalised and checked. Along the way hopefully various questions and discrepancies will have been resolved such that the timetable can now be made ready for proofing.

14. The Excel file has blank worksheets inserted for each non-Excel page of the timetable. These must be adjusted for any non-Excel page changes - then a .pdf file can be made from the Excel which will form the base proofing document. A .pdf file is also made for the Word content, and one for each map. These subsidiary .pdf files can be used to replace the blank pages such that the final proofing copy is complete and correct.

15. Print a copy of the entire final .pdf file and proof it. It's amazing what shows up here that wasn't obvious on screen!

16. Correct, update and iterate as necessary. Create the final .pdf in the same way as the proofing .pdf and this time bookmark it.

17. Job done - the timetable is ready for the public. See how long it takes to find the first error post-publication! Total time taken - about 400 hours.

NOTE: $ - Non-daily train - enquire locally for details of days of running ~ - For other tables see Table 20T

Frequent services of the Hong Kong Mass Transit Railway operate between various stations in Hong Kong and Lo Wu. See: http://www.mtr.com.hk/en/customer/main/index.html

Between Lo Wu and Shenzhen passengers pass through Immigration and Customs controls on foot.

The station previously known as Dongguan has been renamed Changping - the station now known as Dongguan is 23km west - near the old Shilong station.
