### INTRODUCTION

In 2001 I published the first edition of my Chinese Railway Timetable. This translates available timetable information into English, and also converts the information into the style of a British or European railway timetable, from the somewhat incomprehensible Chinese format. The timetable is now into its third edition, with the fourth planned for publication in June 2004. Further details of the timetable are given below.

The timetable is proving popular, but for many travellers, both potential and actual, it contains far more information than is required. I have therefore developed this timetable, which shows direct, air-conditioned trains running between a selection of major Chinese cities. The timetable is set out in the 'quick reference' format used in airline timetables. In addition two tables in the style of my Chinese Railway Timetable are included. Table 20T# shows the intensive express service between Guangzhou and Shenzhen, whilst Table 44 covers a very different railway in northern China, where it is still possible to travel nearly 1,000km in a train hauled by steam locomotives (although perhaps not for much longer). I hope that travellers who are not familiar with the use of railway timetables will find this timetable easy to understand; I welcome feedback as always.

This Quick Reference Timetable is based on the timetable due to come into service on 18 April 2004. Major changes to services have occurred, with many new services introduced. Table 20T# is updated to September 2003 and Table 44 to October 2003 (partially updated to April 2004). Changes to train services can occur at any time (sometimes at short notice); itineraries should be confirmed locally whenever possible. This timetable will be updated as further information becomes available - if you would like to be advised of updates please contact me.

For many travellers the information in this timetable will be sufficient. In particular it may give potential travellers the confidence to include rail travel in their plans. However I do hope that it may whet some travellers' appetite for more information about rail travel possibilities in China - if so they can now know where to find it!

Whatever your interest I hope you find the timetable informative and useful.

### THE CHINESE RAILWAY TIMETABLE

This quick reference timetable is made freely available to assist travellers with journey planning. It shows direct, air conditioned trains running between selected major cities in China. The trains in this timetable represent a small fraction of trains running in China. More information can be found in my Chinese Railway Timetable (October 2002 Edition), which lists every train shown in the official timetable (over 2,400) plus some others. The timetable contains many useful features, including an index map, an index (in Pinyin and Chinese characters) to the over 850 stations shown, information about travelling by train in China and a copyable, bilingual booking form to assist with the purchase of train tickets. A new (April 2004) edition is in preparation; this will be published in June 2004.

Due to its size and complexity the full timetable is not a free publication, but I believe that it offers good value for money. The timetable is available either in printed form (size A4 or A5 - 147 pages) or as two .pdf files (total size 1.64MB). The .pdf version costs GBP9; the printed version costs GBP15 or 18 post paid dependent on size and destination. Payment may be made in various currencies and by various methods, including the possibility of credit card payment. Please contact me, stating your location and how you heard of me, for full details.

## QUICK REFERENCE TIMETABLE

### CITIES COVERED BY THIS TIMETABLE

The Chinese characters on this page can be used to assist with buying train tickets.

The timetable shows trains between selected cities in China. It is divided into three parts as follows:

**Part one** covers trains between: Beijing, 北京  
Guangzhou, 广州  
and Shanghai 上海

**Part two** covers trains between Beijing / Guangzhou / Shanghai and the following cities:

Changchun	长春	Hangzhou	杭州	Shenzhen (for Hong Kong)	深圳
Changsha	长沙	Hong Kong (Jiulong)	九龙	Tianjin	天津
Chengdu	成都	Kunming	昆明	Wuchang	武昌
Chongqing	重庆	Nanjing	南京	Wulumuqi (Urümqi)	乌鲁木齐
Dalian	大连	Nanning	南宁	Xi'an	西安
Guilin	桂林	Qingdao	青岛	Zhengzhou	郑州
Haerbin	哈尔滨	Shenyang	沈阳		

**Part three** covers trains between the following city pairs:

Chengdu and Chongqing	Chengdu and Kunming	Chengdu and Xi'an
Chongqing and Xi'an	Dalian and Shenyang	Guilin and Nanning
Kunming and Nanning	Wulumuqi (Urümqi) and Xi'an	Wulumuqi (Urümqi) and Zhengzhou

### HOW TO USE THE TIMETABLE

All trains shown in this timetable are air conditioned, and run direct between the places shown. Other journey possibilities may exist, either by non air-conditioned direct trains or involving a change of trains. This timetable does not attempt to show all possibilities - full details are available in my Chinese Railway Timetable'. All trains shown in this timetable run daily except as shown. Where the day of arrival is not the same as the day of departure details are given in the notes column - see examples below.

Times shown in **bold** indicate that the train starts at (in the case of departure times) or terminates at (in the case of arrival times) the station shown. Where this applies to both departure and arrival the whole line is shown in **bold**. Reservations (and seats where reservations are not held) are often easier to obtain from the starting point of a train; boarding may also be a more relaxed experience than at intermediate stations.

The example below shows trains from Guangzhou to Shenyang in the left box, and from Shenyang to Guangzhou in the right box. Within each box a line of entry represents a train, in the form: Train number, departure time, arrival time and notes (if any). Some trains serve a station other than the main station; this is shown by a **bold letter** between the hours and minutes for the station - see examples below

### EXAMPLE TABLE

Table numbers (in my full timetable) applicable to this journey (in order)

**Bold type** - train starts at Guangzhou and terminates at Shenyang - reservations may be easier to obtain on such trains

Light type - train terminates beyond Shenyang
