# Chinese Railway Timetable - April 2004 Edition

## SUPPLEMENT No. 2

### Introduction

This supplement is designed to be used in conjunction with the April 2004 edition of my Chinese Railway Timetable, but can also be used as an aid to updating my Quick Reference Timetable. Whilst Part 1 is probably incomprehensible without a base timetable to refer to, the remainder of the supplement contains stand-alone information about newly introduced trains. There is also a complete revision of Table 20T# which shows the intensive service of express trains between Guangzhou and Shenzhen.

Information in this supplement is based on the April 2005 edition of the CRPH timetable, with the exception of Table 20T# which is based on the timetable dated 11 May 2005 published by the Guang-Shen Railway Company. My April 2004 timetable and this supplement read together show the service applicable until mid-October 2005, when major changes will be introduced under the 'Sixth National Railway Speed-up Program'. I will be producing a new edition of my timetable based on this, with publication planned for late December 2005. Further information about my timetables can be found at [www.chinatt.org](http://www.chinatt.org).

The supplement is arranged as follows:

- Part 1 - Lists altered and discontinued trains (ordered by train number)
- Part 2 - Lists new trains running within one table (ordered by table number, then by train number)
- Part 3 - Lists new trains running within more than one table (ordered by train number). These trains are cross referenced from the appropriate tables in Part 2
- Table 15 (extract) - Shows revised 'local' T trains between Nanjing and Shanghai, cross referenced from Part 1 as appropriate.
- Table 20T# - Shows the complete revised service of express trains between Guangzhou and Shenzhen. The information in Table 20T (as amended by this supplement) remains valid for all trains not shown in Table 20T#.

Services on the following lines are new to this edition:

- Table 12A (Mudanjiang) - Aotou - Changting [Heilongjiang] - Existing line with passenger service reinstated
- Table 21 Zhanjiang - Xuwen [Guangdong/Hainan] - Newly built line linking with train ferry to Haikou
- Table 26 Dazhou - Wanzhou [Sichuan/Chongqing] - Newly built line
- Table 30B Liupanshui - Dawan [Guizhou] - Existing line with passenger service reinstated
- Table 30C Liupanshui - Baiguo [Guizhou] - Newly built line

### How to use this supplement

Use the April 2004 edition of my Chinese Railway Timetable to plan your itinerary, consulting Part 2 to find any new trains which may be of use. Make a list of the numbers of all trains in which you are interested and check the list against Part 1.

A train is listed in Part 1 if either departure time at origin or arrival time at destination are outside the range 5 minutes earlier to 15 minutes later than shown before. This means that if 'your' train is not listed in Part 1 the times shown before will be within this range, however allowance must be made for the possibility that the train might depart from intermediate stations more than 5 minutes earlier. The departure time on your ticket (see page P14 of my timetable) will be the correct one.

If 'your' train is listed in Part 1 take note of the information provided. If you travel to or from an intermediate station you may need to interpolate from this information.

Times are shown as in the following examples:

- 08a57 - arrival time
- 12 34 - departure time
- 16 06/15 - arrival/departure time at intermediate station

If a train is shown as discontinued you may find a suitable alternative in Part 2.

If you would like to confirm specific intermediate train times please feel free to contact me. I am happy to provide this service for registered timetable purchasers and will assist others as far as practicable. I hope you find the supplement useful - feedback is welcome as always.

SOURCE: Guangshen Railway Company timetable dated 1 September 2005

All trains operate daily except those marked \$ which run only during holiday periods (for dates enquire locally)

Note: % - Trains T353 & T354 run beyond Guangzhou from/to Shaoguan (Table 20(S)).

TRAIN TYPES: X2000 - Xinshisu (New Speed) 200km/h tilting train; DJJ - Lanjian (Blue Arrow) 200km/h express train; Exp - 160km/h Locomotive hauled express train.

All trains are air conditioned, and have soft seat accommodation only (except trains shown as Exp\*, which have hard seat accommodation only).

FARES: Fares shown above are one-way adult fares, in RMB (Yuan), between Guangzhou/Guangzhou Dong and Shenzhen. Lower fares (enquire locally for details) apply for intermedate journeys.

Frequent train services of the Kowloon-Canton Railway <www.krc.com> operate between various stations in Hong Kong and Lo Wu.

Between Lo Wu and Shenzhen passengers pass through Immigration and Customs controls on foot.
