# Chinese Railway Timetable - April 2004 Edition

## SUPPLEMENT No. 4

### Introduction

This supplement is designed to be used in conjunction with the April 2004 edition of my Chinese Railway Timetable; it completely supersedes Supplement No. 3. Whilst Part 1 is probably incomprehensible without a base timetable to refer to, the remainder of the supplement contains stand-alone information about newly introduced trains. There is also a complete revision of Table 20T# which shows the intensive service of express trains between Guangzhou and Shenzhen.

Information in this supplement is based on the April 2006 edition of the CRPH timetable, with the exception of Table 20T# which is based on the timetable dated 1 January 2006 published by the Guang-Shen Railway Company (which is more up to date!). My April 2004 timetable and this supplement read together show the service applicable until mid-October 2006, at which point I will be producing a new edition of my timetable based on the October 2006 CRPH timetable. This will incorporate the major changes to be introduced under the 'Sixth National Railway Speed-up Program'; publication of the new edition is planned for late December 2006. Further information about my timetables can be found on my website - link below.

The supplement is arranged as follows:

Part 1 [pages 3-10] - Lists altered and discontinued trains (ordered by train number)

Part 2 [pages 11-13] - Lists new trains running within one table (ordered by table number, then by train number)

Part 3 [pages 13-15] - Lists new trains running within more than one table (ordered by train number). These trains are cross referenced from the appropriate tables in Part Table 15 (extract) [page 16] - Shows revised 'local' T trains between Nanjing and Shanghai, cross referenced from Part 1 as appropriate.

Table 15U [page 17] - Shows the complete service on the newly opened network of lines in the Taizhou (Jiangsu Province) area.

Table 20T# [page 18] - Shows the complete revised service of express trains between Guangzhou and Shenzhen. The information in Table 20T (as amended by this supplement) remains valid for all trains not shown in Table 20T#.

### New lines and station renamings

A list of lines which were not shown in my April 2004 timetable, but for which I now have information, is on page 10 at the end of Part 1.

Jinggangshan (Table 43(S)) has been renamed Taihe.

Laizhou (Table 19) has been renamed Nanping Bei.

Guokeng (Table 19) has been renamed Zhangzhou Dong.

Rizhao Xi (Table 15N) has been renamed Rizhao [5km west of the now closed 'old' Rizhao]

### How to use this supplement

Use the April 2004 edition of my Chinese Railway Timetable to plan your itinerary, consulting Part 2 to find any new trains which may be of use. Make a list of the numbers of all trains in which you are interested and check the list (except new trains) against Part 1.

A train is listed in Part 1 if either departure time at origin or arrival time at destination are outside the range 5 minutes earlier to 15 minutes later than as shown in my April 2004 full timetable. This means that if 'your' train is not listed in Part 1 the times shown before will be within this range, however allowance must be made for the possibility that the train might depart from intermediate stations more than 5 minutes earlier. The departure time shown on your ticket (see page P14 of my timetable) will be correct.

If 'your' train is listed in Part 1 take note of the information provided. If you travel to or from an intermediate station you may need to interpolate from this information.

Times are shown as in the following examples:

08a57 - arrival time

12 34 - departure time

16 06/15 - arrival/departure time at intermediate station

If a train is shown as discontinued you may find a suitable alternative in Part 2.

If you would like to confirm specific intermediate train times please feel free to contact me. I am happy to provide this service for registered timetable purchasers and will assist others as far as practicable. I hope you find the supplement useful - feedback is welcome as always.
