Chinese Railway Timetable - April 2007 Edition

SUPPLEMENT No. 3

Introduction

This supplement is designed to be used in conjunction with the April 2007 edition of my full Chinese Railway Timetable; it completely supersedes Supplements 1 & 2. The supplement includes complete re-issues of Tables 15# (Nanjing-Shanghai), 18# (Shanghai-Hangzhou) and 20T# (Guangzhou-Shenzhen), and a re-issue of most of the Quick Reference Timetable. Note that those trains appearing in both Table 20T and Table 20T# are only updated in Table 20T#.

Information in this supplement is based on the April 2008 edition of the CRPH timetable. My April 2007 timetable and this supplement read together show the service applicable until mid-October 2008, at which point I plan to produce Supplement No. 4 based on the October 2008 CRPH timetable. Information received after publication of this supplement will be available at: <http://www.chinatt.org/info.htm>

The supplement consists of 19 pages and is arranged as follows:

- Page 1 Title
- Page 2 Introduction [this page]
- Pages 3-7 Part 1 - Lists altered and discontinued trains (ordered by train number)
- Pages 8-10 Part 2 - Lists new trains running within one table (ordered by table number ('L' Tables at end), then by train number)
- Pages 10/11 Part 3 - Lists new trains running within more than one table (ordered by train number). These trains are cross referenced from the appropriate tables in Part 2
- Pages 12-14 Quick Reference Timetable - Complete replacements for pages 27 to 30 & 32 of the timetable. Page 26 remains unaltered except that the reference to fare information should be to page 33, not 32. Note that page 31 is no longer used.
- Page 17 Trains Not Running Daily (Part 2) - Gives details of those trains which run on alternate days only, and is a complete replacement for page 36 of the timetable. This page now includes details of which destination is served on which day.
- Page 18 Table 15# & 18# - Shows 'local' D trains between Nanjing, Shanghai & Hangzhou, and is a complete replacement for page 81 of the timetable.
- Page 19 Table 20T# - Shows the complete service of express trains between Guangzhou and Shenzhen, and is a complete replacement for page 118 of the timetable. The information in Table 20T (as amended by this supplement) remains valid for all trains not shown in Table 20T#.

Significant Changes in this Supplement

Wuchang station has returned to normal service following reconstruction.

Services are shown for a number of lines not previously included - details are given in Part 2 (Tables L1E, L21E, L37C & L39A).

A fast, regular interval service has been introduced between Kunming and Qujing (Yunnan) - details are given in Part 2 (Table 22).

Baofeng station (Table 25) has been renamed Pingdingshan Xi

How to Use this Supplement

Note that pages 27, 28, 29, 30, 32, 36, 81 & 118 of the timetable are replaced by pages 12 to 19 of this supplement, and that page 31 of the timetable is removed without replacement.

Use the timetable to plan your itinerary, consulting Part 2 of this supplement to find any new trains which may be of use. Make a list of the numbers of all trains in which you are interested and check the list (except new trains) against Part 1 of this supplement. If you have Version 2 of the timetable (the Version number is shown at the bottom of page 1 of the timetable) you can ignore entries on pages 3 to 11 where the train number is shaded, as these have already been incorporated into the timetable. If you have Version 1 of the timetable you will need to take note of all entries.

A train is listed in Part 1 if either departure time at origin or arrival time at destination are outside the range 5 minutes earlier to 15 minutes later than as shown in my April 2007 full timetable. This means that if 'your' train is not listed in Part 1 the times shown in the timetable will be within this range, however allowance must be made for the possibility that the train might depart from intermediate stations more than 5 minutes earlier than shown.

If 'your' train is listed in Part 1 take note of the information provided. If you travel to or from an intermediate station you may need to interpolate from this information. The departure time shown on your ticket (see page P14 of my timetable) will be correct.

Times are shown as in the following examples:

08a57 - arrival time

12 34 - departure time

16 06/15 - arrival/departure time at intermediate station

If a train is shown as discontinued you may find a suitable alternative in Part 2. In some cases trains shown as discontinued may still run - it is always worth enquiring locally. Please let me know of any such cases you find, together with any other useful information.

Note that trains shown shaded with a note 'Until (date)' or 'From (date)' run regardless of date unless shown otherwise in Part 1.

The 'CRPH Page' references in Parts 2 & 3 relate to the April 2008 CRPH Timetable.

The information in this supplement is somewhat complex; if you have any difficulty in interpreting it, or would like to confirm specific itineraries or intermediate times please feel free to contact me. I am happy to provide this service for registered timetable purchasers and will assist others as far as practicable. I hope you find the supplement useful - feedback is welcome as always.
